London.—The war office has issued a call for 9596 infantry volunteers to replace those now serving in South Africa.

Waco, Texas.—The Confederate organizations of this city are preparing to give Green's brigade reunion, which takes place in this city February 21 and 22, a most hearty reception. At a meeting of the arrangement committee last week full plans were laid out and the old veterans will be treated in true royal style.

Many of the blotches, pimples and other affections of the skin are caused by the failure of the liver and kidneys to cast off impurities, which remain in the system. Herbine will stimulate the liver and kidneys, and cleanse the system of all impurities. Price, 50 cents. For sale by J. W. Harris & Co.

Austin, Texas.—The new supply of county superintendents' record books is being received today from the State printers, and the books are being sent out by the department of education as fast as they are received. Any county superintendent who is in need of a new record book and who has not yet filled requisition for one, should do so at once, and he will receive the book by return express.

Herbine should be used to enrich and purify the blood; it cures all forms of blood disorders, is especially useful in fevers, skin eruptions, boils, pimples, blackheads, scrofula, salt rheum and every form of blood impurity; it is a safe and effectual cure. Price, 50 cents. For sale by J. W. Harris & Co.

Austin, Texas.—Some time ago, at the close of a very successful revival meeting in this city, a committee was selected from a number of citizens to enforce law and order and it is learned that their report will be forthcoming before many days. From what can be heard on the subject, the committee has some sensational charges up its sleeves and when its report is turned loose it will cause considerable talk.

HEADS SHOULD NEVER ACHE.

Never endure this trouble. Use at once the remedy that stopped it for Mrs. N. A. Webster, of Winnie, Va., she writes "Dr. King's New Life Pills wholly cured me of sick headaches I had suffered from for two years." Cure Headache, Constipation, Biliousness. 25c at J. W. Harris drug store.

Something of a Surprise.

Austin, Texas, January 9.—The ruling of the attorney general yesterday with regard to the sheriff's fee bill plays havoc with every sheriff in the State. Under the ruling a sheriff is compelled to certify to every process and subpoena he serves, and as the law allows him only 50 cents for each, there will not be much left after paying the county clerk for making the certificate. This will bring the sheriffs down to almost nothing, and several of them say that they did not know the provision was in the bill when it passed.

Better Health.

Better health always follows a use of Mexican Root Pills, simply because they cleanse the system of sickening and effete matter so thoroughly and completely. It is a sin to remain constipated when Mexican Root Pills only cost 25 cents a box.

Mule Breeding in South.

Professor Andrew M. Soule, Director of the Tennessee experiment station at Knoxville, in writing of the recent International Live Stock Exposition, says in the Tennessee Farmer:

"While the draft display was a grand sight, it was not so interesting to southern breeders as one of the light horses and mules would have been. One gentleman from Tennessee who had taken a great interest in the exposition was heard to say when he ran across some mules in a sale barn that they were the first thing he had seen that made him feel at home.

"It is not unlikely that the draft mare may have a greater interest to southern farmers in the future than in the past, as the draft mule, the results of a cross on the draft mare, is now finding favor in northern markets, and if those of sufficient size and quality are bred and they can be obtained from the cross suggested, there will undoubtedly be good money in breeding this class of animals. It is a field worthy of the consideration of the southern farmer. In fact, there is a great field for mules all over the north, as their quality and value for farm labor is not appreciated and very little consistent effort has been made to bring the matter to the attention of northern farmers.

Pinkham's Vegetable Compound I felt very badly, was terribly nervous, and tired, had sick headaches, no appetite, a fever, my sister, if you have any of the symptoms mentioned in Mrs. Valentine's letter, unless you act promptly. Procure Lydia E. Pinkham's Vegetable Compound at once. It is absolutely sure to help you. Then write for advice if there is anything about your case you do not understand.

Those eastward south of the quarantine line may by force of numbers be able to have it abolished, but when they do, they will not help the matter any. They will only put the whole state where they are now, for the states north of Texas, will put the bars up against us good and tight. A part of north and west Texas can go north to market at any time provided they have no ticks. But if the eastern cattle are allowed to come in contact with those of the west, the whole pack would be shut out. That the quarantine works a hard ship on some, is not to be questioned. Who ever heard of a quarantine that didn't? Because Galveston might have yellow fever, why should the whole state suffer with the malady because it works a hardship on her to be quarantined?—Sterling Record.

The record has evidently taken its cue from some paper above the line and is bearing false witness against stockmen below the line on authority, that is, to say the least unreliable.

We do not believe the Record can successfully cite a newspaper nor individual of any standing which or who has demanded an unconditional, unrestricted abolition of the quarantine line or regulations.

Truth is, and no doubt the fair minded editor will admit, the restrictions now are entirely too severe. Men have been harassed in getting across the line out of all reason, and all that the people below the line demand, is an open season when there is no danger of infection.

This they ask, but if there is any big line of opposition, they may take more. The legislature is the power to settle the question and the number of those affected adversely during the past season is so much larger than the number demanding an iron bound, double tight regulation, that the result is already a foregone conclusion.

Many a bright and happy household has been thrown into sadness and sorrow because of the death of a loved one from a neglected cold. Ballard's Horehound Syrup is the great cure for coughs, colds and all pulmonary ailments. Price, 25 and 50 cents. For sale by J. W. Harris & Co.

L. D. McCartney made the Press a very pleasant call and donated some of the stuff that goes to make the heart of an editor glad.

Lincoln Trust Company.

The Lincoln Trust Company reports a very active business during the past week. A large proportion of the purchases made during the week were for homes. New houses of modest design in good residence localities sold readily at fair valuation. The renting business continues good. A large number of six and eight room houses were rented and the demand for flats and homes is great. New dwellings and flats are rented long before they are finished, and at good figures.

The following sales were made: House No. 341 Page avenue, lot 25x155 feet, modern six-room brick, from Mrs. R. Dimmick to Mary R. Smith; consideration, \$8,100. Mrs. Smith bought for a home.

House No. 5347 Theodosia avenue, lot 25x139 feet, with five-room house, from L. H. Clark to Peter Werdes; consideration, \$1,300. Mr. Werdes will make some alterations and repairs and occupy as his future home.

Also the southeast corner of Third street and Clark avenue, having a front of 64 feet 2 inches on Third street by 89 feet on Clark avenue, from a client of J. H. Terry & Son to E. Meyer; consideration, \$8,000.

New York.—A virtual settlement of the bitter struggle for shorter hours which has been waged between the garment cutters and clothing manufacturers of the United States for months was reached today. The question involved about 40,000 men in New York, Boston, Philadelphia, Chicago, St. Louis and other cities. The United Garment Workers demanded an eight hour day and got an eight and a half hour instead of a nine-hour day.

THOUSANDS SENT INTO EXILE.

Lima, Ohio.—The Standard Oil company is about to enter the Texas oil field under the name of the Texas Fuel Oil company. J. S. Cullinan, formerly of this city, who has had charge of the Standard's business at Corsicana, has charge of the matter, and a six-inch pipe line is now being laid from the big gushers on Spindle Top, Beaumont, to Port Arthur, where 5000 barrel tanks are being erected for storage preparatory to the erection of a big refinery. During the oil excitement at Beaumont the Standard Oil people purchased 26,000 acres of land at Port Arthur.
